

## CONTENTS

1	<b>Korobko B.O., Storozhenko D.O., Dryuchko O.G., Bunjakina N.V., Khanyukov V.O.</b> Autonomous automated accumulating complex for the robotized punching process	5
2	<b>Artym V.I., Faflei O.Y., Pents V.F., Kariuk A.M.</b> Features of durability calculation for machine parts and structural elements under high asymmetric low-amplitude load conditions	14
3	<b>Kychma A.O., Predko R.Ya.</b> Loading of structural elements of large-sized rotating aggregates during long-term operation	25
4	<b>Vorontsov O.V., Tulupova L.O., Vorontsova I.V.</b> Coatings discrete surfaces construction by superpositions of adjusted mesh frames	36
5	<b>Orysenko O.V., Fenko O.G., Zotsenko M.L., Vynnykov Yu.L., Kharchenko M.O.</b> Supported construction for quarry excavator travers	46
6	<b>Orysenko O.V., Kryvorot A.I., Ilchenko V.V., Filipova H.A.</b> The automobile tires vulcanization method repair process experimental investigation	56
7	<b>Pichugin S.F., Patenko Yu.E., Maslova S.A.</b> Probabilistic numerical characteristics of overhead cranes loads on industrial buildings frameworks	62
8	<b>Makhinko A.V., Makhinko N.O.</b> Analysis of the deflective mode of thin-walled barrell shell	69
9	<b>Storozhenko L.I., Murza S.O., Yefimenko O.I.</b> Capacity flexible compressed reinforced concrete elements reinforced with steel sheets	79
10	<b>Semko P.O.</b> Comparison of experimental studies and numerical modeling results of concrete filled tubular elements with demountable joints	88
11	<b>Bondar V.O., Akhmednabiyev R.R.</b> Durability of heavy concrete using boiler slags with circulating fluidized bed	97
12	<b>Mitrofanov V.P., Pinchuk N.M.</b> Essentials and problems solving algorithms of general strength theory of rc elements under complex stress-strain states	104
13	<b>Karpiuk V.M., Kostiuk A.I., Somina Yu.A.</b> Models of bay reinforced concrete elements resistance at action of cycle permanent sign high level forces	112

14	<b>Fenko O.G., Yurko I.A., Karabash L.V., Yurko P.A.</b> The influence of own stresses on tensile concrete strength	124
15	<b>Maliovana O.O.</b> Strength of higher strength concrete elements under shear action	131
16	<b>Mytrofanov P.B.</b> Research of durability compressed reinforced concrete elements from high–strength concrete based on the deformation model with extreme strength criterion	141
17	<b>Bidakov A.M., Raspopov I.A.</b> Test method of clt by tension perpendicular to grain	148
18	<b>Zotsenko M.L., Vynnykov Yu.L., Bondar V.O., Novokhatniy V.G.</b> Monitoring of the soil-cement piles buildings settlements	159
19	<b>Malyshev O.V.</b> Consolidation zones features formation of a ground around square shaped piles	167
20	<b>Naydenova V.E.</b> Laboratory experimental research of loading forces development acting on the side surface of the piles	174
21	<b>Lytvynenko T.P., Gasenko L.V., Sharyi G.I.</b> Features of street-road network modern designing and reconstruction in cities	181
22	<b>Filonenko O.I., Yurin O.I., Kodak O.A.</b> Energy performance of residential buildings	189
23	<b>Biletsky V.S., Mishchuk Yu.S., Kuznetsova Yu. I.</b> Static mixers in flushing fluid circulation systems of drilling rigs	197
24	<b>Nalyvaiko O.I., Vynnykov Yu.L., Nalyvaiko L.G., Petrash R.V., Ichanska N.V., Chyhyriov V.V.</b> Magnetic field influence technologies on high-paraffin crude oil in the pipeline with different caliber	208
25	<b>Soloviov V.V., Mykhailovska O.V., Yermakova I.A.</b> Conditions of a single intake descending of intermediate casing strings of an excessive weight compared to a derrick load capacity	214
26	<b>Kutnyi B.A., Pavlenko A.M.</b> Mathematical modeling of the thermodynamic process gas-steam bubbles	220
27	<b>Nesterenko M.P., Redkin O.V., Nesterenko T.M.</b> Directions and mechanisms of innovative high-tech and organizational development of real economy sector	227

28	<b><i>Redkin O.V., Pahomov R.I., Zyma O.E.</i></b> World experience of business processes organization build-investment projects new forms and management in the field of Ukraine complex objects development	238
29	<b><i>Dyachenko E.V., Drizhyruk Yu.V., Zyma O.E., Lazariiev D.M.</i></b> Works execution organization at building reconstruction and renovation with usage of slabs lifting method	246
30	<b><i>Molodid O.S.</i></b> Indicators of floor slabs reinforcement technical and economic investigation by different technologies	253
31	<b><i>Altukhova D.V.</i></b> Methodological principles of calendar planning by probabilistic character of construction	263
32	<b><i>Usenko V.H., Kodak O.A.</i></b> Probability of the utility networks double-ring structures' connectivity for sites with various reliability	270
33	<b><i>Semko O.V., Mahas N.M., Mishchenko A.R., Mishchenko R.R.</i></b> Moisture effects on the building walls	278
34	<b><i>Maksiuta N.S., Golik Yu.S.</i></b> Comprehensive study of atmospheric pollution in cities	285
35	<b><i>Nesterenko M.P., Dubrovskiy O.A., Kaiurin A.S.</i></b> The experience of civil engineering specialists with high qualification at Bialystok University of Technology	292
	<b><i>Anniversary celebrant</i></b>	300
